Save 10%-75%

Average Savings \$61

The Free Prescription Drug Card offers the uninsured and underinsured an option to save on costly medications

The card is pre-activated and can be used immediately at over 63,000 pharmacies nationwide

This card works well with Health Saving Accounts (HSA's), High Deductible Plans, and Non-Covered Medications.

The cards are very easy to use, simply present the card to the pharmacist along with your prescription. The pharmacist will enter the card information into the computer applying the discounted rate for your drug.

Save on Pet Prescriptions too.

DID YOU KNOW: Most pet prescriptions are just different doses of the same medicines as prescribed for people and can be filled at your local pharmacy? Be sure to ask your Vet. for a written prescription when drugs for your pet are needed.

This is not insurance. Discounts are available through participating pharmacies.
